

Innowave Chiller GF

Cold/Hot/Ambient Water Dispenser

Features:

A Fresh Approach and New Look

Incoming tap water is treated and cooled as needed, so water is always fresh and great tasting, glass after glass

In-Tank UV Protection

Utilizes ultraviolet light to prevent the potential for biofilm (slime) buildup in the 4-Liter, stainless steel storage tank

Built-in Leak Protection

Large Dispensing Area

Accommodates containers up to 9" in height

Plumbed Water System

Dispenser must be plumbed into a water line

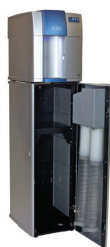

Other Floor Standing Water Options:

Follett Series

ION Pure Refreshment

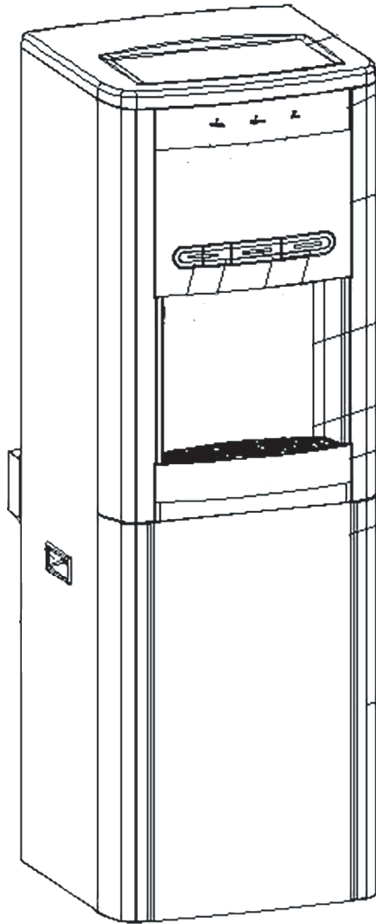

Innowave Chiller 3

Innowave Chiller LBG

Keep Your Water Sparkling

Industry standards recommend changing out your ice, water and coffee line filters every 6 months, depending on your water conditions. Regular filter changes and maintenance keep your machine running at peak performance, and your drinks sparklingly clear.

Each filter contains a built-in prefilter to remove sediment and coarse dirt particles. Inner workings then effectively filter out smaller particles that affect taste, protect the equipment from abrasion and lower energy costs by reducing limescale. Activated carbon block filters reduces chlorine taste and odor, so that the flavor of your beverage shines.

Dimensions
H 40.5" x W 13.5" x D 16"

Dry Weight
58 lbs

Electrical
120V / 60Hz

Water Options
Cold, Ambient, Hot
(fixed 185-degree)

Water Supply Option
Direct-Plumbed
