

Innowave LBG

Cold/Hot Water Dispenser

Features:

A Fresh Approach and New Look

Incoming tap water is treated and cooled as needed, so water is always fresh and great tasting, glass after glass

Tested and Certified Treatment Technology

Utilizes three different filters: 5-micron Sediment Filter, Carbon Block Filter and 1-micron Filter

Clean Water Linked to Wellness

Point-of-Use systems are ideal for consumers concerned with local water quality, or those simply looking to have better tasting water

No More Bottles

No more storing, hauling, lifting heavy 5 gallon bottles

Plumbed Water System

Dispenser must be plumbed into a water line

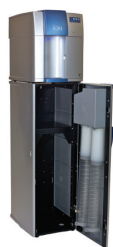

Other Floor Standing Water Options:

Follett Series

ION Pure Refreshment

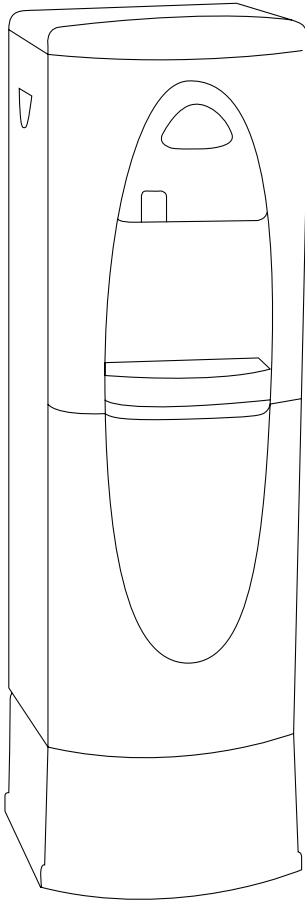

Innowave Chiller 3

Innowave Chiller GF

Keep Your Water Sparkling

Industry standards recommend changing out your ice, water and coffee line filters every 6 months, depending on your water conditions. Regular filter changes and maintenance keep your machine running at peak performance, and your drinks sparklingly clear.

Each filter contains a built-in prefilter to remove sediment and coarse dirt particles. Inner workings then effectively filter out smaller particles that affect taste, protect the equipment from abrasion and lower energy costs by reducing limescale. Activated carbon block filters reduces chlorine taste and odor, so that the flavor of your beverage shines.

Dimensions
H 44" x W 13" x D 15"

Dry Weight
52 lbs

Electrical
120V / 60Hz / 4.75 Amps

Water Options
Cold, Hot

Water Supply Option
Direct-Plumbed
